COMMUNITY INVOLVEMENT & GLOBAL AWARENESS

The building of supportive, caring relationships is the school's core building block and central to every aspect of school life. The belief that every child has the right to and can learn is inherent in every decision the school makes. Students are encouraged to grow intellectually, emotionally and socially. Students are challenged to strive to achieve their personal best. Literacy and numeracy are the foundations of the school's academic program. With the arts and integrated curriculum approach will provide all students a well-rounded education. The school is committed to implementing a forward thinking curriculum which is engaging, challenging and sustainable in order to equip students for the demands and opportunities of a changing society. Students are taught to work cooperatively with others, to think laterally, make informed decisions and share the responsibility for their own learning and behaviour. Individual student achievements are acknowledged and celebrated.

Multi age classes and small orderly learning environment caters for the needs of individual students. The teaching in each class require teachers to be able to accommodate arrange of knowledge and abilities. The school recognises the importance of the home/school relationship and encourages parent participation and values a cohesive school council and the shared decision-making process.
